

Supplier Booking Automation with Expedia

- 1 Guest requests a new booking from Expedia's system
- 2 Inventory is checked in real-time and the booking is created in your system instantly
- 3 Amendments or cancellations may also happen in real-time from Expedia
- 4 Your inventory is always up to date and adjusted automatically

Automation saves your staff time

*Connecting OTA channels can save your company

240hrs/month in Staff time
or

\$4500/month in Staff expenses

*Assumptions:

- A supplier with average 500 bookings/day
- 30% of all bookings come from non-automated resellers
- An average staff wage of \$15/hr

Why get connected? This is the manual staff time that you can save:

3.2 mins
to enter a single booking

20%
of reservations modified 2.5 times

2%
of reservations are cancelled
